- Trusted solutions that meet customers' objectives and adhere to their schedules
- Proactive preventive maintenance program
- Safety on all fronts
- Minimal disruption and inconvenience to customers' living and (or) working environment
- On budget and on time solutions
- Absolute customer confidence
- Total customer satisfaction

IT'S HOW WE DO IT

Our Relentless Focus

Our Way is Clear

CWW's unwavering objective is to examine, adopt, and employ advanced, proven trenchless technologies designed to improve the performance and sustain the longevity of sewer infrastructures.

And History has Shown

CWW has worked hard at establishing and meeting the highest standards in the industry; and on behalf of our customers – old and new – we intend to be regarded as the champion of the industry.

A Relentless Commitment to Customer Confidence and Satisfaction

Raising the bar, setting the standards – being the best – to CWW it means settling for nothing short of excellence, consistency, and effectiveness in every area of our business. Our company's success can only be measured – and rightly so – by the complete satisfaction of our customers, and we stand ready to accept their evaluation.

IT'S WHAT WE HAVE

A Formidable Fleet

The Cavalry's on Its Way

CWW's advanced fleet includes CCTV units with state-of-the-art DVD imaging equipment. Our combo trucks are custom designed to CWW high efficiency specifications. Vactor trucks are equipped with 3850cfm blowers (vacuums) contain 18" Hg. 1,500 gallon capacity fresh water tanks, 12 cubic yard capacity debris tanks, 152mm diameter liquid decant valves, 270 degree rotation booms with 2.44m extensions, and sport 400,000 BTU water heaters for reliable all-weather operation. CWW has combo and cutter units; grouting units; and a wide range of equipment including broad array of nozzles, hoses, and reamers to clean sewers, remove debris, and eliminate extraneous protruding objects, and robotic cutters for the removal of hard debris and (or) protrusions. To keep every piece of equipment in pristine condition, under the guidance of CWW's fleet manager, CWW's in-house mechanics maintain and service the CWW fleet on a daily basis. With virtually every CWW unit less than five years old, its fleet can be counted on to provide maximum productivity and minimal downtime.

At a Glance: CWW equipment includes:

- CCTV & Cutter Units
- Swabbing Units
- Combo Units
- Hydro Vacuum Excavators
- Steamer Units
- Boiler Units
- Tractor and Refrigerated Units for resin-impregnated liner transportation
- Winch Van Units
- Service Units
- Pumps and Bypass Equipment
- Chemical Grouting Units

IT'S WHO WE ARE

The Best There Is

Cutting-edge Credibility

CWW is proud to be acknowledged as the national leader in innovative pipeline rehabilitation through "No Dig" Trenchless Technology for aging and compromised sewer infrastructures, fixtures, and related components. CWW is known for its commitment to maintenance, inspection and reconstruction, and earns its revered reputation by consistently honouring its raison d'être:

- Adopting and employing advanced technologies for seamless and uninterrupted pipeline flow
- Providing long-lasting structural rehabilitation
- Delivering significant near- and long-term cost savings
- Keeping site displacement and disruption to an absolute minimum, thereby promoting uninterrupted livability, business-as-usual and sustained revenue

Strategic Methodologies Bound by Quality

CWW's quality is unequalled. Its approach: understand the existing system, investigate subsoil conditions, formulate a blueprint plan and implement it under a set of proven CWW Standardized Procedures Manual guidelines.

Preparedness, Responsibility, and Vigilance

Best-in-class work must stand equal to the well being of our crews, the customers we serve, and the public at large. To CWW, health and safety are what they should be: paramount. CWW crews hold JHSC certification in Confined Space Entry, WHIMIS, First Aid, CPR, Safe Trenching, TDG and Safe Traffic Control Procedures, and more.

IT'S ABOUT YOU

Whoever we serve on any given day – our municipal, industrial, commercial, and residential customers – and wherever it may be – CWW's crews of licensed specialists provide expedient, efficient, and environmentally friendly services that produce required results with the least amount of impact on business, traffic, and surrounding landscape – on budget, on time, and on promise.

"We chose this field of work, we 'live' what we do, and our customers say it shows. With our experience, know how, facilities and equipment we have a lot to give, and we give a lot. Our customers expect and receive nothing less..."

— John Brule, CEO
